**Subject:** Gold King Mine Website

Hi Kelly,

I just wanted to let you know that I have telephoned and sent a number of messages to our HQ Web colleagues to offer to help and to share very specific suggestions for the Website. They are taking direction from Jennifer Colaizzi, the PIO. They suggested that I send our suggestions directly to her so I did that but I haven't seen any response from her nor have I seen our suggestions incorporated into the recently updated [Gold King Mine](#) site. However, Jeff Morin of the Web team was amenable to general suggestions from me about photos – placement/presentation/captions and the site is improving with the updates and additional information. I think another suggestion we may want to offer is to incorporate some of the language from [Administrator McCarthy's Remarks on Gold King Mine](#) into the introductory language on the home page. If you agree and would like me to offer that suggestion, I'll go ahead with it.

Here are some of the specific suggestions I have already made (I sent you a bcc of the email) to both the Web staff and Jennifer Colaizzi.

- more information on the main page - some bullets on facts/figures, some images and a bit more about the sampling sites
- PR should be in a banner, or a large part of the text posted on the main page.
- map - include a map of the area on home page

I'm copying Bill K. and Bill G. on this since I know you are about to go out on leave and I'll also be going on leave on August 14 at noon.

Bonnie
